

Maximizing corporate and personal travel

Credit cards, points strategy, and consolidator access

Every booking is a
strategy decision

3 levers most travelers miss

01

Credit card strategy.

Choose cards that earn 3–5x on travel and stack category bonuses for \$250K+ annual spend.

02

Points optimization.

Transfer points to airline programs at peak value instead of redeeming at fixed rates.

03

Consolidator access.

Below-retail fares on premium cabins through industry inventory most travelers never see.
