

We make touring frictionless

What we'll cover

01

The challenge

Why touring travel is the weakest link in artist operations

02

The solution

How Ascend handles end-to-end travel in real time

03

The impact

Revenue protection, cost savings, and time reclaimed

04

The partnership

Structure, terms, and next steps

Travel is the weakest link

Missed shows = lost revenue

A single missed performance means lost fees and damaged reputation with promoters and venues.

Constant last-minute changes

Tour schedules shift daily. Routing changes need immediate resolution, not hold queues.

Managers acting as travel agents

Time spent coordinating flights and hotels is time not spent on deals and artist development.

No real-time support

When something breaks at 2 AM in a foreign country, there's no one to call.

Text. Approve. Done.

STEP 01

Request

Send travel needs via WhatsApp: dates, routes, preferences. That's it.

STEP 02

Approve

Receive options with clear pricing within 60 minutes. Approve and booking is confirmed.

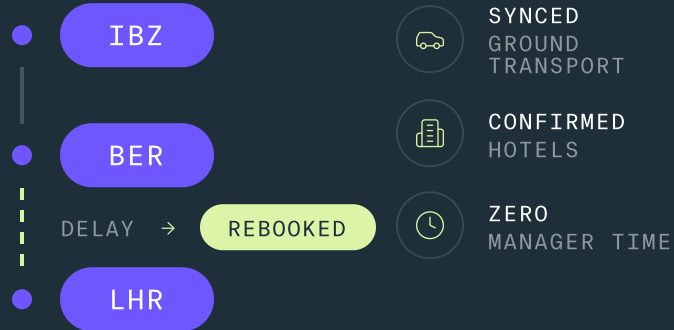

STEP 03

Done

Fully managed end-to-end. Flights, cars, hotels. Monitored and handled.

48 hours on tour, handled end-to-end

Revenue protection, not travel support

PREVENTION

\$250K+

Show revenue
protected

A single missed show costs
\$10K–\$250K+. Ascend
prevents that.

SAVINGS

~\$84K

Annual savings

Estimated savings on
premium fares across a
touring roster.

TIME

100+

Hours reclaimed

Management hours
redirected from logistics
to deal-making and
artist growth.

OPERATIONS

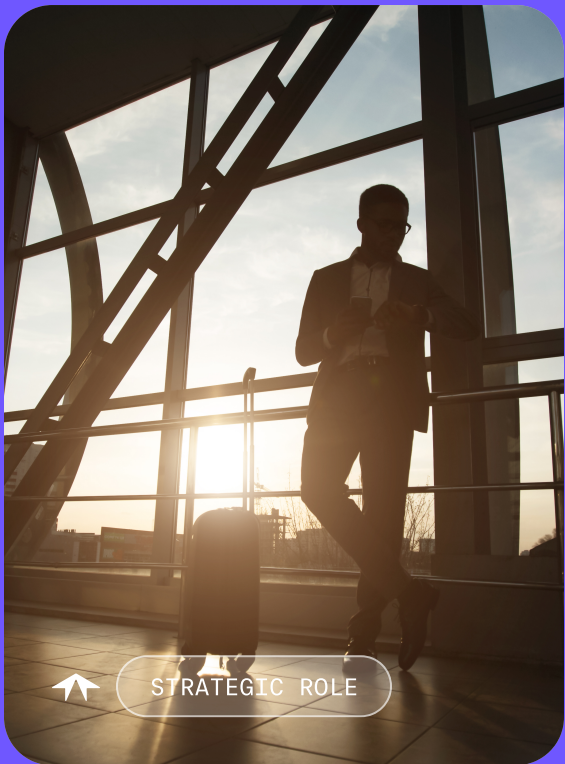

Zero

Operational
burden

No coordination, no hold
queues, no
platform juggling.

Pays for itself the
first time something
goes wrong

Partnership structure
